Talent Acquisition Team

Firstsource Solutions Limited | India

Re: General Application — Data Science, AI & Analytics

Dear Hiring Team,

I am writing to express my interest in joining Firstsource Solutions Limited as part of your Data Science, AI, or Analytics team. As a final-year B.Tech Computer Science student at Manipal University Jaipur, with hands-on industry experience in LLM development, agentic AI, data pipelines, and business intelligence, I am eager to contribute to FSL's mission of delivering technology-driven BPM solutions across Healthcare, BFSI, and Communications sectors.

During my tenure as a Full Stack & AI Developer at AgriCart Farmtech, I fine-tuned large language models on domain-specific datasets, built RAG-based conversational agents, and designed end-to-end data pipelines — deploying these solutions in a live production environment. This experience has equipped me with a strong foundation in the AI and automation capabilities that are increasingly central to intelligent BPM operations. Additionally, at Deloitte's Capstone Program, I built a blockchain-powered audit trail system for supply chain transparency, giving me exposure to process compliance and traceability in enterprise contexts.

My project portfolio spans NLP-based sentiment analysis using BERT, explainable AI for healthcare diagnostics, predictive modelling for infrastructure management, and computer vision research — reflecting versatility across the key domains FSL serves. I am proficient in Python, SQL, Power BI, and Tableau, and have practical experience transforming raw, unstructured data into actionable insights for stakeholders across technical and business functions.

FSL's positioning at the intersection of technology and customer lifecycle management is precisely where I want to build my career. I am a fast learner, a collaborative team member, and someone who thrives in dynamic, client-focused environments. I would welcome the opportunity to discuss how I can add value to your team. Please find my resume attached for your consideration. Thank you for your time.

Yours sincerely,

Harshwardhan Pandey
